Avoid these

for better Sleep

+ why it's bad

Playing games/ Watching TV- activate our minds making it more difficult to sleep

Using your phone just before bed- the blue light emitted from phones inhibit the production of hormones that are important to help you sleep

Caffeine + Nicotine in the afternoon/evening- stimulate the brain and inhibit sleep hormones

Using alcohol to sleep- low quality light sleep, you keep stirring and waking

Taking sleeping pills- become reliant n them

Napping for longer than 30 mins

Top Tips

for better Sleep

Having a consistent sleep + wake time- Gets your inner sleep clock into a regular routine so you will fall sleep easier

Get regular exercise each day- To use up all that energy so your body is tired

Regular sunlight exposure- regulates your cardiac rhythm cycle, and the production of sleep and wake hormones

Keep the temperature in the room cool, but make sure your hands and feet are warm

Make sure your room is dark enough with no light and it is quite with no distractions

Meditate regularly and before bed

DIY

Heat pillow

White rice or flax seeds, Thread, Needle,
12-inch square piece of material (can recycle old
sheets)

Fold the material in half with the good sides together,
sew all the sides leaving a little gap in one of them
(about 3 inches)

turn inside out and fill $\frac{2}{3}$ full with either white rice or
flax seeds.

sew up the opening

You are done and can now decorate it if you want

Heat in the microwave for 30-60 seconds

DIY

Sleep eye mask

Material, ribbon or elastic, thread, needle, Paper

Draw out the shape of a mask on a piece of paper big enough to fit well on your face covering your eyes and cut it out

place this piece on a folded piece of material (so 2 layers), draw round the paper mask and cut this mask shape out of the material.

Pin both pieces of mask material, with the good sides together, sew all around the edges leaving a little gap (about 3-inches long).

Turn the material inside out so the good side is on the outside and so up the gap.

Now so 2 separate piece of ribbon on either sides of the mask (where the temples would be) to have a tie back, or instead sew on a piece of elastic the length of the diameter of your head.

You are done and can now decorate

Yoga + Meditation

Body scan- From your toes up to your head, focus on each body part separately, tense them up really tight and then release and relax (4 times) then move onto the next body part

Deep breathing- Focus on your breathing. for every breath out, imagine a black cloud filled with all the negativity in your body, leaving you as you blow out

Imagine every breath in is a pastel coloured cloud filled with peace, relaxation and positivity is being inhaled into your body. Filling your inner body up slowly, until it fully glows the same colour.
